

RGB-CCT LED strip 21 W/m (RGB + CCT adjustable)

Flexible COB LED strip 21 W/m (840 chips/m), with RGB and white (RGBW), hereby the color temperature can be set from warm white to cool white (CCT adjustable, approx. 2800 K to 6500 K). Warm white and cool white are not created by RGB mixing, but by means of separate chips, resulting in a "clean" white without the color cast typical of RGB. Dot-free, beam angle 180°, CRI > 90, self-adhesive, width 12 mm, dimmable, length 5 m, cuttable each 35 mm. Max. brightness 1080 lm/m (RGB and white combined) or 340 lm/m (white only).

Type-no.	143 638 210
Power	21 W/m
Brightness	1080 lm/m
Outer size	5000 x 12 x 2 mm
Approvals	
Remarks	LED controller and LED driver 24 V DC required
Standard delivery time	1-2 days
