

LED module chain 3 m, 22 W

Extra-bright LED module string for backlighting small or irregularly shaped surfaces, such as company logos or lettering. 20 modules connected by cables. Total length 3 m. Each module with 3 LEDs with front lens for even light distribution, beam angle 160°, IP68. Exceptionally bright due to highly efficient LEDs (170 lm/W). Dimmable. Homogenous backlighting from approx. 60 mm on. Easy installation with self-adhesive modules; alternatively, they can be screwed-mounted.

Type-no.	152 673 022
Power	22 W
Brightness	3700 lm
Outer size	3000 x 15 x 11 mm
Approvals	
Remarks	LED driver 24 V DC required
Standard delivery time	1-2 days
